Office Memorandum • UNITED STATES GOVERNMENT

TO : SAC, NY

FROM : [REDACTED] SA (100-101142) (#7-2)

DATE: 12/10/54

SUBJECT: EMMA LAZARUS FEDERATION (Bufile 100-400394)

The ELF is located in Room 911 at 160 5th Ave. This is in a modern one story building with 2 passenger elevators at the front entrance and one freight elevator at the rear. Room 911 is as far removed from the passenger elevators as is possible to get.

[REDACTED] He is reliable and fully cooperative who is regularly contacted [REDACTED] With his assistance it is proposed to develop a highly confidential informant re the ELF. [REDACTED] a source can furnish full info. re the ELF executive and membership, all ELF correspondence since the group was formed, produce all of cancelled checks for examination, produce other financial records, furnish some books and pamphlets of value in the general CP field.

The building at 160 5th Ave., per [REDACTED] is securely locked at 10:00 PM each night and no one has access to it after that hour. [REDACTED] is on duty after that hour. Source will provide access to the building for the informant as well as access to the ELF. He will advise [REDACTED] that work is being performed for him in his office which is directly across the hall from the ELF and that the persons therein should be completely undisturbed until they require aid in leaving the building. The [REDACTED] ordinarily remains on the first floor and he will be instructed to do so and to guard the entrance and admit no one.

[REDACTED] regularly occupy the ELF office. They will be surveilled away from the office and kept under surveillance until it is obvious that they do not contemplate return to it. It is felt that the above described measures will provide complete security to the informant.

Also on 12/15/54 there is a defense rally of Anti-Fascists and Peace Fighters at Hotel Woodstock, 43rd St. and it is believed possible these people and members of their organization will attend the rally.

Accordingly, it is suggested that SA [REDACTED] the writer, and a designated supervisor be authorized to contact the described HCS subsequent to 10:00 PM on 12/15/54, such contact probably lasting for 3-5 hours. Necessary surveillances to be conducted by [REDACTED] and [REDACTED] commencing at 4:00 PM.

For your information, following several conferences, the Bureau has been contacted with respect to a problem which has arisen concerning the handling of June matters. (u)

Up to the present time, each time that material is utilized in a letter or in a report, which material emanated from a highly confidential source, it has been necessary for the Agent preparing the communication to also prepare a memo for the June file setting forth that he has utilized this information and the identity of the file in which the data was utilized. (u)

Inasmuch as numerous names and other data are developed from confidential sources, a high volume of these JUNE memoranda have been routed into the June file. (u)

The Bureau has instructed that it is appropriate for us to assign a permanent symbol number when a highly confidential source will be used as the basis for information being set forth in future reports. [REDACTED] C

The Bureau has been advised that this procedure will be followed and that the symbol numbers will be designated as [REDACTED] for those pertaining to security matters and [REDACTED] for those pertaining to criminal matters. (u)

At the time the memorandum is prepared setting forth details concerning the development of a confidential source there should be an accompanying letter to the Bureau under the JUNE caption advising Bureau of the symbol number which will be utilized. This symbol number should be secured from [REDACTED] (u)

The above instructions apply not only to anonymous sources developed in the future but also to anonymous sources developed in the past in connection with which data secured therefrom is being utilized in our outgoing communications. (u)

In the future, therefore, no memoranda should be prepared for the JUNE file as previously setting forth that data from an anonymous source is being utilized in a particular outgoing communication. (u)

If the utilization of material from an anonymous source developed years ago becomes necessary, at that point a communication should be prepared informing the Bureau of the pertinent symbol number assigned to that confidential source.

The above instructions are effective on Friday, August 27, 1954. (X) (4)

When information has been secured from the same confidential source on several different occasions, the same symbol number will be used but the specific date should be indicated for the receipt of the information. (X) (4)

When information is included in a communication which emanates from a confidential source of another field division, a T symbol should be utilized and the administrative page should describe the informant as an anonymous informant of the --- office as reflected in --- letter (or other communication) dated ---. No symbol will be assigned by this office for such sources. (X) (4)

You should immediately discuss the above with your supervisory staff and in turn the supervisors should very promptly advise all Agents of the new procedures initiated, which will be effective Friday, August 27, 1954. (X) (4)

SUBJECT: "JUNE" MATTERS

DATE: 5/20/54

It is suggested that determination be made of following aspects of JUNE program so that uniformity may prevail so far as NYO files concerned:

I. Whether trash covers constitute investigative techniques which under "JUNE" classification. If so this would affect maintenance both pending and closed files concerning trash covers.

II. Bag Jobs - Three different means of handling this operation as recording in file performance of bag jobs have been observed, follows:

- (2) Based on same, dissemination memo prepared (see memo 9/10/53, 100-68221; memos 9/1/53, 100-95896; memo 8/10/53, 100-92919)
- (3) When information included in report, June memo prepared to support identity of anonymous source - example: rpt. 9/2/53, 100-92919 June memo submitted.
- (1) Preparation of memo by ASAC recording approval by Bureau official of performance of bag job.
- (2) Preparation of memo by Agent recording performance of bag job some with addenda reflecting Bureau official advised of successful completion.
- (3) Preparation of memo for case file re exhibit secured from source stated as anonymous; (Examples: 100-7689- 3/29/54)
- (4) Preparation of June memo identifying anonymous source in case file under step (3); (Examples: 4 dated 3/29/54, 62-10026) (It is noted in one matter several memos, each describing separate piece of material were prepared, in same file, date, and individual June memos were prepared for each memo, containing identical info and which identify source set out in step (2) above);

(In another matter, various memos were prepared for June file, 62-10026, ostensibly to identify anonymous source, but instead of setting out info as in memo (step 2 above) these memos state that identity of anonymous source can be found in memo in June file dated -- .) Example: lt. to Bureau 5/7/54 100-87235 and June memo, 62-10026, 5/7/54, captioned CENTRAL RESEARCH MATTERS.

[REDACTED] However, it is felt that ALL such proposals and later abandoned matters are not placed in this file in view of the lack of uniformity in handling those which are performed.

IV - It is also possible that lack of uniformity exists re source to which exhibit material in various case files is attributed, since several "performance of bag job" memos state that photos of material will be maintained as exhibits in pertinent case file. No check has been made of files re this.

V - There seem to be varying interpretations of need for June memos to support anonymous sources referred to in letters to other divisions regarding material obtained from bag jobs - examples lt. 9/8/53, 100-92919, which has no June memo, and lt. 5/7/54, which has one [REDACTED] (c)

612 I have in past suggested that symbol be assigned bag jobs, in order to alleviate preparation of numerous June memos on theory source can simply be identified in report as [REDACTED]. However, I have been advised that Bureau does not desire assignment of symbol to such bag jobs since to do so would require maintenance of records of such [REDACTED]

Preparation of one and sometimes two memos reflecting contact with Bureau officials re bag jobs would seem to be contrary to their reported desire to avoid maintenance of records which might at some time prove embarrassing, in that it shows cognizance on their part of an illegal entry. If there has been a change in Bureau feeling or instructions along this line, so far as I know that fact has not been generally disseminated, due to the three different methods of handling this operation as above outlined, nor has memo to this effect been placed in file.

CONFIDENTIAL ANONYMOUS SOURCE
ASSIGNMENTSJUNE

In view of the material now being channeled into the JUNE file concerning the above-captioned matter, it is recommended that a separate sub-file be set up for all matters under the above caption. This of course would facilitate location of any needed material in this connection, and would prevent the JUNE file from becoming too conglomerated. (u)

If you approve this recommendation, it is believed desirable to have the JUNE file reviewed for what would appear to be a reasonable period of time under the circumstances so that serials could be extracted and placed into the sub-file. It may be determined that it is not necessary to go back for too long a period of time, but in any event it is recommended that we go back at least to January 1, 1954, or preferably December 1, 1953, which would take us back to a period covered by the last inspection of this office. SUBJECT:

SURVEY - MANPOWER NECESSARY TO
CONDUCT AVERAGE CONFIDENTIAL
ANONYMOUS INVESTIGATION

A survey of confidential anonymous investigations reveals that these investigation are handled in three phases: (1) the survey which includes file reviews, indices checks and background investigation; (2) the actual assignment, and (3) processing information obtained on the assignment. (u)

[I. SURVEY] (u)

The survey entails file reviews and indices checks on occupants of the apartment or office involved. In cases wherein there has been a previous investigation, this phase of the confidential assignment is limited to the review of the files pertaining to the subject. However, where there is no file on the subject, considerable background information has to be developed as well as an exhaustive indices search. (u)

In each case it is necessary to develop confidential sources at the apartment or building involved. In the average case this requires developing the superintendent and/or some other occupant of the building who is in proximity to the subject's apartment. Following the development of a source at the residence, the next problem is to set up a plant or cover apartment where photographic equipment can be operated and where possible movements of the subject can be physically observed. (u)

The manpower required in the survey, the initial phase of the confidential assignment, on the average requires two agents to conduct the necessary file reviews, indices checks and to develop the sources and establish plant or cover apartment. The two agents take on the average of from one to three days on this phase of the assignment. (u)

Once the cover apartment or plant has been established it is necessary to conduct a physical surveillance prior to the actual assignment to determine the activities and movements of the subject and other occupants in the office or apartment which he is located. The manpower to be expended is dependent upon the number of persons involved in the subject apartment or office and the size of the building in question. The average assignment requires four agents and a period of from one to five days. (u)

4/26/54

II. ACTUAL ASSIGNMENT

X(u)

Following the preliminary survey and the establishing of a plant and prior to the actual assignment itself, a conference is called to brief all agents assigned. Specific assignments are made and instructions given. In the average case, three to four agents are on the actual assignment. One of the men assigned, a supervisor, mans the handy-talkie, which is in direct contact with agents on surveillance covering the immediate apartment. Depending on the size of the assignment, two to three agents make the actual search. Two agents are assigned to the cover apartment; one agent is in charge of photographing material, the other agent assists in assuring that material to be photographed is not misplaced from its original location. X(u)

Depending on the building involved, the number of offices or apartments and the number of exits involved, additional agents are needed to assure the security of the agents on the assignment. It is also necessary to have the subject and the other occupants of the apartment or office located and under surveillance. The average number of agents assigned to surveillance in connection with the assignment is approximately eight to ten men. X(u)

III. PROCESSING INFORMATION RECEIVED

X(u)

In the average assignment approximately 500 separate photographs or exposures are realized. These are developed by the office laboratory. X(u)

The first review of the material obtained is made by the two agents who conducted the initial file review for the assignment. The purpose of this first review is to check address and appointment books for any obvious "meets" or immediate leads requiring prompt action. X(u)

SUBJECT: [CONFIDENTIAL TECHNIQUES] (u)

~~CONFIDENTIAL~~

Assistant to the Director L. V. BOARDMAN telephonically contacted the writer today at 12:30 p.m. and stated that some Agent in Washington in a classroom made the remark that bag jobs were unconstitutional. This information was immediately brought to the attention of Mr. TOLSON and Mr. BOARDMAN and he stated that in view of this situation, hereafter no bag jobs would be authorized unless there were present exceedingly unusual circumstances with a guarantee of results and that none would be authorized without the exact specific recommendation of the SAC, who was to make his recommendation to Mr. BOARDMAN. He reiterated there must be very unusual circumstances. He pointed out that the Bureau has lost confidence in New York. (u)

I asked Mr. BOARDMAN whether this Agent is a New York Agent who made the remark because if it was a New York Agent, I would take immediate steps to determine how friendly he was with other Agents on that squad and to determine whether or not he had ever worked such a technique, the thought being that his mental outlook might be present among other members of that squad. Mr. BOARDMAN stated he would attempt to find out and let me know. (u)

6/16) This information was immediately given to ASAC DONALD E. MOORE, Supervisor [redacted] and SA [redacted]. I requested [redacted] to prepare a list of Agents who actually enter upon the techniques as well as the names of the surveillance Agents, the thought being that a study should be made to determine which of these men should be retained on this type of activity and which should be deleted. CONFERENCE NOTES - CLASSIFYING INFORMANTS - JUNE

FROM ASAC D.E. Moore

~~CONFIDENTIAL~~

At 5:50 P.M. 3/30/55, I discussed with SA [redacted] Bureau, SAC Letter 55-26 (E) and particularly that section on page 4 of the SAC Letter captioned "CLASSIFYING INFORMANTS." I asked [redacted] as to the classification on technical surveillances, microphone surveillances, anonymous sources [redacted] and asked him if these informants should be classified as "who has furnished reliable information in the past." I pointed out that in some cases this might be the initial contact with the anonymous source or might be the initial receipt of information from a tech, mike or [redacted]

At 11:15 A.M. 3/31/55 [redacted] said he had taken this matter up with Mr. Belmont and he said that information received from the mentioned informants (techs, mikes, anonymous sources, and [redacted]) should be classified as "who has furnished reliable information in the past" unless they are being initially contacted or we are receiving information from them at the beginning, and in such cases they should be classified as "who is in a position to furnish reliable information"

A confidential anonymous source was developed at the residence of UNSUB [REDACTED] believed identical with [REDACTED] on 2/9/55. The subject's room was in a neat orderly condition and the only evidence of her Communist activity was found in a locked overnight bag. This bag contained four brown envelopes, each envelope containing copies of the DAILY WORKER. One of the brown envelopes bore a notation "Current". It is believed that this identical envelope was in the possession of [REDACTED] on Feb. 8, 1955, at which time a highly confidential anonymous source was developed concerning the material [REDACTED] possession. Each of the above-mentioned envelopes contained DAILY WORKERS of no apparent significance. It was noted, however, that the WORKERS appeared to be in a fixed order and may have been so placed to make it possible for the subject to detect if anybody had been tampering with her effects. Extreme caution was taken in handling this material so that our activity could not be detected. It should also be noted that none of the clothing she maintains at her apartment has any identifying labels or other indications as to her true identity or past whereabouts. It was noted, however, that she retains two room rent receipts under the name [REDACTED] (u)

In the future this highly confidential anonymous source will be referred to under the symbol number [REDACTED] (u)

RE: [DEVELOPMENT OF HIGHLY
CONFIDENTIAL SOURCES] (u)

In order to have uniformity in the memoranda prepared with reference to the development of highly confidential sources, it is requested that the memos contain the following information in the form set out hereinafter: (u)

The title of the case under which the source is being developed should be in the title of the memorandum. There should be a sub title listing the name of the person on which a highly confidential source is being developed, together with the character, the Bureau file number and the New York file number. Under the file number should be listed whether or not subject is an S.I. subject. This, of course, should be a "June" memorandum. (u)

The balance of the memorandum should be broken down under sub headings as follows: (u)

Time: Under this sub heading should be a statement as to when it is anticipated the source will be developed.

Residence: This should set out the address and the apartment number where the source is to be developed. Also the identity of anyone else who may be living with the subject.

Employment: Under this heading should be listed the employment of the subject, as well as that of the spouse.

Reason for Developing Source: Under this sub heading should be stated briefly why we are developing this source and what is expected to be gained.

Security Aspects: Under this heading should first be set out in one paragraph a description of the premises, such as whether or not it is a private home or apartment, what floor the apartment is on, how many other apartments are on the floor, whether or not we have a cover apartment, the location of the cover apartment, whether we have a key to the subject's apartment, etc.

The second paragraph should list the names and positions of those persons cooperating with us to effectuate the development of the source. Included in this paragraph should be listed specifically the investigation conducted and the results thereof of these individuals. Example would be criminal record check negative, indices New York Office negative, etc. The identity of the agent responsible for this investigation should be set out.

The next paragraph should set out what security precautions are being taken in connection with the development of the source. An example of this would be a statement that anyone in the immediate apartment will be kept under surveillance at the time the source is being developed.

The next paragraph should contain a certification by the immediate Supervisor preparing the memorandum as to the security aspects of the development of the source.

Miscellaneous: Under this heading should be set out the name of the agent to whom the case is assigned; the name of the agent responsible for the development of this source and the name of the agent and/or Supervisor who will be on the job having immediate responsibilities for its operation.

With reference to the remainder of the personnel actually assigned on the job, it will not be necessary to set this out in the above memorandum but they should be listed in the next memorandum prepared setting out the results. Prior to securing Bureau authority for development of such a source, the SAC must approve and the Bureau be advised.

INTERNAL SECURITY - C.

In connection with the development of highly confidential and anonymous sources, there has been utilized successfully by the New York Office a new and practical investigative technique, which may prove of value to other offices in the development of these sources in their territory. (S)(U)

The technique involves the use of "booties", which is a type of shoe cover commonly used by window dressers in their trade. These "booties" are used by window dressers in order to allow them to walk around a display window without leaving shoe or dirt marks on the floors, rugs or other material used in the display. The "booties" are slipped on over their shoes and obviates the necessity of removing their shoes. (S)(U)

It should be noted that the "booties" are comparatively small in bulk and can easily be folded to handkerchief size and carried in the pocket of the user. The very practical and advantage use of the "booties" in connection with the development of highly confidential and anonymous sources is realized on snowy and rainy days when shoes become wet or muddy. On such days, these "booties" can be easily and quickly slipped over the wet shoes just prior to entering the particular apartment, office, etc. and will allow movement within the premises without leaving "telltale" stains or smears. Upon exit they can be removed just as easily and placed in the user's pocket thus affording a higher degree of security and a greater degree of movement while in the premises. (S)(U)

It was ascertained too, during this operation, that the use of the "booties" also cut down considerably the amount of usual and ordinary floor noises made by walking on floor boards, linoleum, etc. and permitted a much quieter movement within the premises. This indicates a definite additional advantageous use of the "booties" even on dry days where silent movement is of the essence in maintaining a high degree of security. (S) U

The New York Office has purchased a half dozen of these "booties" which are currently being used by the agents engaged in this activity, and one pair is being forwarded to the Bureau with this letter for examination and by way of explanation. (S) U

The "booties" were purchased in New York from a shoe supply wholesale house at a cost of 25¢ per pair. They also can be purchased through any retail shoe store at probably a slightly higher cost and should be accessible through these outlets to any of the Bureau offices. (S) U

Office Memorandum • UNITED STATES GOVERNMENT

TO : SAC, NEW YORK (66-61823)

DATE: 12-27-55

FROM : S. [REDACTED]

SUBJECT:

It is requested that a symbol number be assigned for use in reporting information obtained from [REDACTED]

and [REDACTED]

on 12-16-55: *q u*

The information consisted of approximately 1,000 3" X 5" cards which were used for seating guests at a dinner sponsored on 12-15-55 at the Capital Hotel, NYC, by the Emergency Civil Liberties Committee. The cards bore the name of each guest and, in some cases, the name of the table holder. They were obtained by the [REDACTED] on 12-17-55. *u*

Three photostat copies were made of the three by five cards. One photostat copy together with the original cards were returned to [REDACTED] on 12-22-55 by S. [REDACTED]. One copy is being placed in the Emergency Civil Liberties Committee file (NY 100-107419) and one copy will be used for dissemination purposes. *u*

[REDACTED] also advised that the letters "s.v.", which appear on some cards, apparently mean "seated with", followed by the name of the person at whose table the individual whose name appears at the top of the card was seated, and the table number. [REDACTED] stated whether or not the person whose name appears at the top of the card attended the dinner. On three cards where the name of the individual at the top is followed by several names, the source related, it is believed that this individual was a table holder at the 12-15-55 dinner, and the listed persons were seated at his table. *u*

FROM : ASAC D. E. Moore

SUBJECT: HIGHLY CONFIDENTIAL SOURCES 744

JUNE DM

At 11:45 a.m. this date Inspector J. A. Sizoo of the Bureau telephonically advised that with regard to authority for continuing sources the Bureau was setting up a uniform date for memos to be received at the Bureau. He stated that offices east of the Mississippi are to submit the material to arrive at the Bureau no later than the 8th of the month, and offices west of the Mississippi no later than the 18th. He said in all cases the material on continuing jobs should be UACB except for the first request on a continuing basis.

Mr. Sizoo said that we should send the material in in the same way as in the past, and should send it all to the personal attention of Assistant Director Belmont. 744

FROM ASAC E. J. McCABE

SUBJECT DICTATION OF MATERIAL OBTAINED
FROM HIGHLY CONFIDENTIAL SOURCES / *QU*JUNEALL
416

[REDACTED] Training and Inspection Division, Bureau, on 9/9/55 telephonically advised that the LA office had a procedure whereby only three stenographers working full-time were assigned to copying and transcribing all material obtained from highly confidential sources. In many instances, this procedure resulted in non-compliance with the five-day transcription rule. The LA office, in justifying this procedure, has advanced the following reasons: *QU*

1. The stenos handling this work exclusively become familiar with names, locations, etc. and can handle more work.
2. The material itself is highly confidential and for security reasons it is better that the dictation be limited to the selected stenos.

[REDACTED] requested that NY advise as to its procedure and requested that he be telephonically recontacted as soon as possible.

After discussing this matter with Supervisor *[REDACTED]* who was acting for ASAC MacLennan, Supervisor *[REDACTED]* who was acting for ASAC Moore, and ASAC Simon, the writer advised *[REDACTED]* that in the NYO when the material is obtained from a highly confidential source and the symbol number is identified with the location, the material is dictated only to the secretaries of the supervisors. However, when the material is identified with the symbol number and the location is not set forth, the material is given to any of the stenos. *QU*

As to Misurs and Tesurs, it was pointed out that in the NYO we have a June Unit handling this matter *[REDACTED]* was advised that we have three stenos regularly assigned to handling the dictation and typing of the confidential material. In this instance

too, if the location is not identified with the symbol number the dictation is handled by other stenos. *Q U*

In a word, it was pointed out that the NYO insures full security by selecting the personnel to handle the dictation and typing and at the same time complies with the Bureau's requirement with reference to the five-day transcription rule. *Q U*

SUBJECT: HIGHLY CONFIDENTIAL SOURCES

(6/1/6)
7/10

At 5:20 p.m., 8/2/55, I telephonically communicated with Inspector V. P. Keay of the Bureau and referred to his conversation with Supervisor [REDACTED] on July 29, 1955. I asked Mr. Keay whether the monthly memorandum in this matter should be submitted based on the date of approval, July 29, 1955, or based on the date the memoranda were submitted. I pointed out that we had not been contacting these sources on a regular basis without the approval and therefore we would have little or no information to report unless we used the date of July 29, 1955. Mr. Keay said that this would be correct and that we should submit our monthly memorandum on the four approved contacts to reach the Bureau by August 29, 1955. *Q U*

I also asked Mr. Keay with regard to the information concerning security factors whether it would be necessary to repeat the information if the security factors remained the same as previously set out. He said it would not be, and that if the security factors were the same as previously set out in our memoranda we could just state in subsequent memoranda that security factors remained the same. *Q U*
